# WEIGHTS AND MEASURES

To find diameter of a circle multiply circumference by .31831.

To find circumference of a circle multiply diameter by 3.1416.

To find area of a circle multiply square of diameter by .7854.

To find surface of a ball multiply square of diameter by 3.1416.

To find side of an equal square multiply diameter by .8862.

To find cubic inches in a ball multiply cube of diameter by .5236.

Doubling the diameter of a pipe increases its capacity four times.

Double riveting is from 16 to 20% stronger than single.

One cubic foot of anthracite coal weighs about 58 lbs.

One cubic foot of bituminous coal weighs from 47 to 50 lbs.

One ton of coal is equivalent to two cords of wood for steam purposes.

There are nine square feet of heating surface to each square foot of grate surface.

Each nominal horse power boiler requires 30 to 35 pounds of water per hour.

To sharpen dull files lay them in diluted sulphuric acid until they are eaten deep enough.

A horse power is equivalent to raising 33,000 pounds one foot per minute or 550 pounds one foot per second.

The average consumption of coal for steam boilers is 12 pounds per hour for each sq. foot of grate surface.

To find the pressure in pounds per square inch of a column of water multiply the height of the column in feet by .434.

Steam rising from water at its boiling point (212 degrees) has a pressure equal to the atmosphere (14.7 pounds to the square inch).

## Trouble Balancing Your Budget?

Help is available at PIONEER VALLEY CONSUMER CREDIT COUNSELING SERVICE, a non-profit agency (not a loan company) where counseling is confidential and LOW COST. We can help you develop a realistic plan to pay your bills, and show you budgeting methods to keep future bills in line. Appointments scheduled in Springfield, Northampton or Southbridge.

### It's A Fact:

More than 8,000 patients are waiting for a kidney transplant-approximately 2,000 will receive one this year. Because of a shortage of suitable donors, some 6,000 will not.

- SERVICES

Although headquartered in Maynard, MA, Digital is a prime employer in the Springfield area: 1800 work in the Westfield plant (opened in 1970), and 950 in an inner-city facility located in the Springfield Armory complex on Federal St. (opened in 1972).

Digital's contribution to the economic and social consciousness in the Greater Springfield community is one example of Digital's commitment to communities in general and those in Massachusetts in particular. Digital is totally committed to its employees - to their training, to their total development, and to the atmosphere in which they work. For that, Digital expects a commitment from them. They must make sure Digital is successful and can build a quality product competitive with others on the market. The products made here are used globally in scientific research, computation, communication, education and industry in computer systems ranging from monitoring a patient's heartbeat to automating a company's payroll.
